25X1 18. [redacted] Met with Guy McConnell, Senate Appropriations Committee staff, and provided him with fact sheets on the Soviet AN-12, AN-22 and the IL-18 which Senator Young had requested at the Director's briefing of the Intelligence Operations Subcommittee on 11 October.

McConnell and I discussed the report of the Senate Special Committee to Study Questions Related to Secret and Confidential Government Documents,

25X1 [redacted]

first inclination was to prepare a letter for the Chairman to send to the Director requesting the Agency's views on this report. However I called his attention to the Director's letter to the Chairman dated 27 July 1973 on this subject and said I feel this was still a good statement of the Agency's position on this subject. McConnell said he agreed and assumed that our position regarding the disclosure of personnel strength figures would be essentially the same. I told him that it would. McConnell was somewhat puzzled by the statement in the report naming one of the intelligence offices. McConnell said he was aware of no list given to this committee by McClellan although McClellan did brief Senator Alan Cranston (D., Calif.) orally.

McConnell and I discussed the budget situation at some length and I placed a call to Charles Briggs, OPPB, to get a report on his meeting with Ralph Preston, House Appropriations Committee staff, this morning. See Memorandum for the Record.

25X1 19. [redacted] James Calloway, Senate Appropriations Committee staff, called and asked if the Agency would be willing to provide a speaker for the Oakton, Virginia, high school senior class. He said these students were on the Hill today and the question had been raised. He wondered if they could come to the Agency for a visit and a talk. I told Calloway that visitors to our Headquarters created a number of logistical problems but added I would look into the question and felt fairly confident that we could at least provide a speaker to address this group either at their school or on the Hill.
